

HAMTE and KAMTE Pre-Service Teacher Virtual Conference

*Friday, November 11, 2022
9:00 AM – 3:30 PM*

Call for Poster Presentations

KAMTE and HAMTE invite you, as pre-service mathematics teachers, to submit a proposal to present a poster that highlights any of your research or learning in your teacher education program. This is a safe forum to share your initial ideas and experiences and to get feedback and support from other pre-service teachers. Research may include undergraduate research projects or action research in which you have participated. Haven't participated in research? Present on effective teaching strategies, good teacher moves, motivating tasks for students, or anything else you have learned that you think others should learn too!

The poster session will be held between 1:00 – 1:45 PM.

To see examples of past pre-service teacher poster presentations, visit [KAMTE PST Virtual Poster Session](#).

To submit a poster for presentation please fill out the Google Form found at this [link](#). Poster proposals are due by Friday, October 14, 2022.

You must be registered for the conference to present a poster. Registration is free. Use this [link](#) to register for the event.

Please email Dr. Sarah Kasten at kastens1@nku.edu with any questions.
