Numeracy Target: Facile backward counting from any number within 30

[Numeracy Targets Chart](#)

Fluency Benchmark: KY.2.NBT.5 Fluently add and subtract within 100.

Kentucky Academic Standard(s): [KY.K.CC.2](#)

Student-Friendly Learning Target: I am learning to say the number words backward in the range 30 to 1.

Suggested Student Grouping(s): individual / group / whole class

Materials:

- Numeral cards 5-29;
- Two-color numeral roll (with each decade in alternating colors and only one pre-printed numeral per decade)

Activity Description:

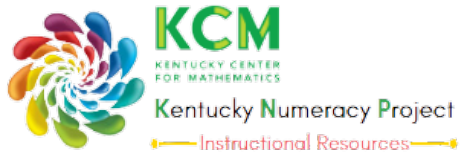

Turn over a card and count backward from that number. Use the numeral roll to keep track of the count.

Teacher Notes:

When the child reaches one of the numerals printed on the numeral roll or gets to a change of color, he/she can self-check on accuracy. Note how the student finds the starting number; does (s)he count* from one to find the position or does (s)he use a reference number?

Evidence of Learning (Diagnostic Assessment of Progress):

Ask student to count backward from various numbers in the range 1-30.
