

Lesson Plan for KNP Activity

Ni 1122.4: Comparing Numbers

Teacher Planning Notes:	
Task Group Number: 1122	Task Group Name: Comparing Numbers
Strand: Numeral Identification	Activity Level and Color: 4 Green
KNP Activity Link with access to Printables and Student Instructions: /knp/activity.php?id=1122.4&prefix=Ni	
Numeracy Target: Identify numerals 0 to 1,000 Numeracy Targets Chart	
Fluency Benchmark: KY.4.NBT.4 Fluently add and subtract multi-digit whole numbers using an algorithm.	
Kentucky Academic Standard(s): KY.2.NBT.3	
Student-Friendly Learning Target: I am learning to read and compare three-digit numbers.	
Suggested Student Grouping(s): partners	
Materials: arrow cards for hundreds, tens, and ones, separated into 3 piles	
Activity Description: Working in pairs, students both pick an arrow card from each of the three piles (cards should be turned down). Each student builds the three-digit number with his/her arrow cards. Students compare numbers. The student with the greater number says the comparison statement ("875 is greater than 463") and writes the comparison on his/her recording sheet. The player who is first to record six comparisons is the winner.	
Teacher Notes:	
Evidence of Learning (Diagnostic Assessment of Progress): Show the child three numerals (such as 1, 6 and 4) and ask him to make the largest 3-digit number possible using those digits. Repeat with another 3-digits (such as 7, 9 and 2). Ask the child to again make the largest 3-digit numeral possible using those digits. Ask the child to compare the 2 numbers made and write an inequality statement.
