

Lesson Plan for KNP Activity

S 2265.1: Match the Quantity

Teacher Planning Notes:	
Task Group Number: 2265	Task Group Name: Match the Quantity
Strand: Structuring	Activity Level and Color: 1 Red
KNP Activity Link with access to Printables and Student Instructions: /knp/activity.php?id=2265.1&prefix=S	
Numeracy Target: Facile structures to 5 Numeracy Targets Chart	
Fluency Benchmark: KY.K.OA.5 Fluently add and subtract within 5.	
Kentucky Academic Standard(s): KY.K.CC.3	
Student-Friendly Learning Target: I am learning to match domino patterns with numerals 1 to 5.	
Suggested Student Grouping(s): independent / small group	
Materials: regular dot pattern cards and numeral cards 0 to 5	
Activity Description: Memory: This game is played like regular memory where a "match" consists of a numeral card and a representation card of matching quantity. Place the numeral cards and dot cards face down. On a player's turn, the player turns over two cards. If the cards match the child takes the pair. If not, the cards are turned back over. In either case, play moves to the next player. Play until all pairs are found. The player with the most pairs wins the game. To make the game easier, print each set on different color paper. Players should choose one of each color when turning over cards.	
Teacher Notes: Other representation cards are available such as the dot cards found in "Concentration 1" at http://www.edu.gov.mb.ca/k12/cur/math/games/index.html	
Evidence of Learning (Diagnostic Assessment of Progress): Flash the domino patterns for 1-5 and have students show the quantity on finger patterns or write the matching numeral on a writing surface.
