

Lesson Plan for KNP Activity

S 2268.2: Make the Target (up to 10)

Teacher Planning Notes:	
Task Group Number: 2268	Task Group Name: Make the Target
Strand: Structuring	Activity Level and Color: 2 Blue
KNP Activity Link with access to Printables and Student Instructions: /knp/activity.php?id=2268.2&prefix=S	
Numeracy Target: Intermediate structures to 10 Numeracy Targets Chart	
Fluency Benchmark: KY.1.OA.6 Fluently add and subtract within 10.	
Kentucky Academic Standard(s): KY.K.OA.2 , KY.K.OA.3	
Student-Friendly Learning Target: I am learning to find the number needed to add to make a given total to 10.	
Suggested Student Grouping(s): partner	
Materials: 5 frame cards, 2 each of 1 through 5; cube with numerals 6, 7, 7, 8, 9, 10.	
Activity Description: Place cards face up on table. The first student rolls the cube to find the target number. Then first student chooses a card to be the first addend. The other student chooses a card that will go with the first addend to make the target number. Students switch roles. If a student is playing independently, the student can roll the cube and find two cards to make the target.	
Teacher Notes: The first student must choose the first addend carefully so that the required second addend is available. Students can be asked to record the corresponding equation. If the activity is teacher led, the teacher can choose the target number and choose the first card (addend). Students will then determine the missing addend.	
Evidence of Learning (Diagnostic Assessment of Progress): Lay down a set of 5 frames. Point to the frame with 5 dots and ask "What goes with this to make 9?" Point to the frame with 4 dots and ask "What goes with this to make 7?" Continue with similar questions.
