Suggested Student Grouping(s): small group / whole class

Materials:

verbal

Activity Description:

Count Around Activity: Students stand in a circle. The first student starts the count at a number in the range of 1-4, as selected by the teacher, and the students count around the circle with each student saying the next number in the sequence up to 10. The student who says "10" sits down and the next child begins the count again starting at the chosen number. Repeat until only one child is left standing.

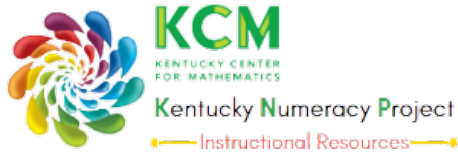

Teacher Notes:

Prior to this activity the teacher may need to have students practice saying the Forward Number Word Sequence in a repetitive manner in short sequences (1-3, 4-6, 6-10, etc.).

Evidence of Learning (Diagnostic Assessment of Progress):

Say a number word in the range of 1-10 and ask the student to say the number word that comes after. Watch to see if the student must drop back and count to find the number.
