Materials: verbal	
Activity Description: Count Around Activity: Students stand in a circle. The first student starts the count* at a number in the range of 11 to 30, as selected by the teacher, and the students count around the circle with each student saying the next number in the sequence up to 30. The student who says "30" sits down and the next child begins the count again starting with the original start number. Repeat until only one child is left standing.	
Teacher Notes: Vary the starting/ending numbers to address student needs. For example, students may need to work on numbers to 20 before moving on to 30.	
Evidence of Learning (Diagnostic Assessment of Progress): Say a number word in the range of 1-29 and ask the student to say the number word that comes after. Repeat using various numbers.
