

Lesson Plan for KNP Activity

Nb 1101.4: What's Before?, 1-30

Teacher Planning Notes:

Task Group Number: 1101

Task Group Name: What's Before?

Strand: Backward Counting

Activity Level and Color: 4 Red

KNP Activity Link with access to Printables and Student Instructions:

Numeracy Target: Facile backward counting from any number within 30

[Numeracy Targets Chart](#)

Fluency Benchmark: KY.2.NBT.5 Fluently add and subtract within 100.

Kentucky Academic Standard(s): [KY.K.CC.2](#), [KY.1.OA.5](#)

Student-Friendly Learning Target: I am learning to say the number word just before a given number in the range 1-30.

Suggested Student Grouping(s): Small group

Materials: Consecutive numeral cards within the range 1-30; enough so each student will have 3 cards (e.g. for 4 players use 12 cards with a range such as numbers 13 to 24; for 3 players use 9 cards with a range such as numbers 17 to 25)

Activity Description: Deal all the cards to the two to five players so each player will have 3 cards within the range 1-30, not necessarily starting at 1 (player one may have 14, 18, 20 and player two may have 15, 17, 21, etc.). Each player studies the cards in his/her hand and lays down the largest numeral card. The teacher checks each player's decision. Looking at the cards on the table, the group decides which card is the largest. The largest card on the table stays, while the other cards are returned to the players' hands from which they came. Play now continues as the students place the remaining numeral cards in backward sequence, one by one, on top of the numeral card showing, until all of the cards are played. The player with the last card in the sequence is the winner.

Teacher Notes: The website link is a place to find printable numeral cards. Note students who are having difficulty with quantity and numeral identification. For support with knowing the number word before, have a strip of written numerals in sequence (could be a numeral track). Also, have counters available to aid students in determining the largest quantity.

Evidence of Learning (Diagnostic Assessment of Progress): Say a number in the range of 1 to 30. Have the child tell the number word before that number.
