

Lesson Plan for KNP Activity

Nf 1101.1: What's After?, 1-5

Teacher Planning Notes:	
Task Group Number: 1101	Task Group Name: What's After?
Strand: Forward Counting	Activity Level and Color: 1 Yellow
KNP Activity Link with access to Printables and Student Instructions: /knp/activity.php?id=1101.1&prefix=Nf	
Numeracy Target: Rote counting 1 to 10 Numeracy Targets Chart	
Fluency Benchmark: KY.1.OA.6 Fluently add and subtract within 10.	
Kentucky Academic Standard(s): KY.K.CC.2 , KY.K.CC.7	
Student-Friendly Learning Target: I am learning to recognize and read the numerals 1-10 and count forward from 1 to 10.	
Suggested Student Grouping(s): Small group	
Materials: consecutive numeral cards (in the range of 1 to the number that is double the number of players-- e.g. for 3 students you need numeral cards 1--6; for 5 students you need numeral cards 1--10); enough so each student will have 2 cards	
Activity Description: Deal all the cards to the two to five players so each player will have 2 cards as described in the setting above (player one may have cards 4, 1; player two may have cards 6, 3; player three may have cards 2, 5). Each player studies the cards in his/her hand and lays down the lowest numeral card. The teacher checks each player's decision. Looking at the cards on the table, the group decides which card is the lowest. The lowest card on the table stays, while the other cards are returned to the players' hands from which they came. Play now continues as the students place the remaining numeral cards in forward sequence, one by one, on top of the numeral card showing, until all of the cards are played. The player with the last card in the sequence is the winner.	

Teacher Notes:

Although the range of numbers may extend beyond five (depending on the number of players), this activity will provide for work within the range 1-5. The website link is a place to find printable numeral cards. Note students who are having difficulty with quantity and numeral identification. For support with knowing the number word after, have a strip of written numerals in sequence (could be a numeral track). Also, have counters available to aid students in determining the lowest quantity.

Evidence of Learning (Diagnostic Assessment of Progress):

Say a number in the range of one to ten. Have the child count forward from that number to 10.

KNP ID #Nf 1101.1
