Activity Description:

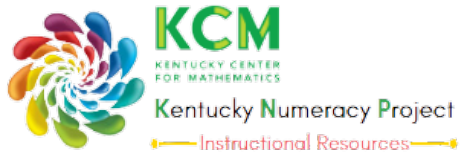

Count Around Activity: Students stand in a circle. The first student starts the count at a number in the range of 10 to 30, as selected by the teacher, and the students count around the circle with each student saying the next number in the sequence down to 10. The student who says "10" sits down and the next child begins the count again starting with the original start number. Repeat until only one child is left standing.

Teacher Notes:

Use a numeral track or numeral roll for support, if needed.

Evidence of Learning (Diagnostic Assessment of Progress):

Ask each student to name the number that comes right before various numbers in the range of 1-30.
