Numeracy Target: Facile backward counting from any number within 1,000
Numeracy Targets Chart

Fluency Benchmark: KY.3.NBT.2 Fluently add and subtract within 1000.

Kentucky Academic Standard(s): KY.2.NBT.2, KY.2.NBT.5

Student-Friendly Learning Target: I am learning to count within 1000. I can skip count backward by 5s, 10s and 100s.

Suggested Student Grouping(s): small group / whole class

Materials:
verbal

Activity Description:
Play Count Around as described in Nb 102.5 but choose the starting numbers in the range of 1 to 1000. Label individual index cards choosing from the following list: +1, -1, +5, -5, +10, -10, +100, -100. As the students are counting around, the teacher will at various intervals hold up one of the cards. For example, he/she might show the -10 card which would require counting backward by 10's on or off the decade, depending on the previous number spoken.
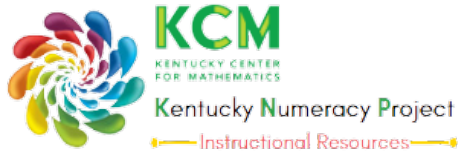

Teacher Notes:
Create other cards such as +50, -50, +25, -25. Consider also having students count by 2, 3, 4, 8, etc.

Evidence of Learning (Diagnostic Assessment of Progress):
Ask student to name the number that comes right before various numbers in the range of 100-1000. Ask student to count back by 5, 10 and/or 100 from various numbers within 1000.
