Fluency Benchmark: KY.1.OA.6 Fluently add and subtract within 10.	
Kentucky Academic Standard(s): KY.K.CC.1 , KY.K.CC.2	
Student-Friendly Learning Target: I am learning to say the number that comes before a number in the range 1 to 10.	
Suggested Student Grouping(s): individual / group / whole class	
Materials: a ten-sided die with numerals 0-9 on it, or numeral cards 1-10 (can use dots or symbols)	
Activity Description: Roll the die or draw a card. Say the number word before the number rolled or the card drawn. If zero is rolled, use it as ten and say the number before ten.	
Teacher Notes: For small group activity without using the die, generate starting numbers by using the numeral cards and have the child draw a numeral card and say the number word before. At this level students may need to drop back in order to find the number word before.	
Evidence of Learning (Diagnostic Assessment of Progress): Say a number in the range of 1-10 and ask students to say the number that comes before that number. Students may have to drop back and count to figure out the number word before.
