

Lesson Plan for KNP Activity

Ni 1140.1: Ordering 10

Teacher Planning Notes:

Task Group Number: 1140

Task Group Name: Number Puzzles

Strand: Numeral Identification

Activity Level and Color: 1 Yellow

KNP Activity Link with access to Printables and Student Instructions:

</knp/activity.php?id=1140.1&prefix=Ni>

Numeracy Target: Identify numerals 0 to 10

[Numeracy Targets Chart](#)

Fluency Benchmark: KY.1.OA.6 Fluently add and subtract within 10.

Kentucky Academic Standard(s): [KY.K.CC.4](#), [KY.K.CC.7](#)

Student-Friendly Learning Target: I am learning to correctly order numbers 1-10.

Suggested Student Grouping(s): Independent

Materials:

- Empty number path
- Numeral tiles number: 1-10

Activity Description:

Independent work: Set the empty number path in front of the student. Shuffle the numeral tiles and place them face down in front of the student. The students will draw a number tile, one at a time, and place it in the correct place on their number path. Activity is completed when the student has correctly placed all ten tiles on the number path.

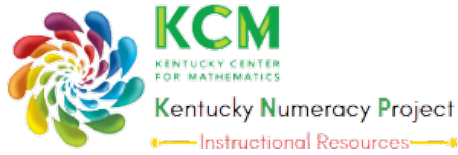

Teacher Notes:

This activity challenges students to correctly order numerals 1-10. This is an introductory level for this task group. Set up: Cut each puzzle apart on the dashed lines and store in a baggie or envelope individually. Each puzzle will consist of one number path and numeral tiles number 1-10. Created by Jordan Rhude & Emily Westerling, 2015

Evidence of Learning (Diagnostic Assessment of Progress):

Place numeral tiles on front of the students. Have the students put the number tiles in order from 1 to 10.
