

Lesson Plan for KNP Activity

Ni 1130.3: Hundreds Alien

Teacher Planning Notes:

Task Group Number: 1130

Task Group Name: Number Alien

Strand: Numeral Identification

Activity Level and Color: 3 Blue

KNP Activity Link with access to Printables and Student Instructions:

</knp/activity.php?id=1130.3&prefix=Ni>

Numeracy Target: Identify numerals 0 to 100

[Numeracy Targets Chart](#)

Fluency Benchmark: KY.2.NBT.5 Fluently add and subtract within 100.

Kentucky Academic Standard(s): [KY.K.CC.4](#)

Student-Friendly Learning Target: I am learning to tell the number name within 100.

Suggested Student Grouping(s): Partners

Materials:

- Full hundreds chart
- 5 Star markers for each player
- Alien marker

Activity Description:

One student will lay down the alien on a number they choose. They will then place the five stars anywhere else on the chart. Each stars and alien should set within one square. Student 1 then asks student 2 what number the alien is on. When student 2 gets that correct, student 1 will then ask student 2 what number each star is on. Switch roles and repeat.

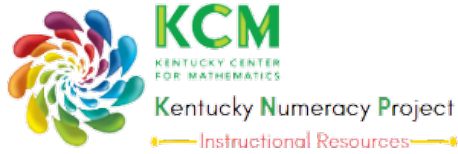

Teacher Notes:

This activity challenges students to identify numbers in the range of 1-100 on a hundred chart. Students are ready for this activity when they can identify and locate numbers in the range of twenty. Materials Notes: A hundred chart and color chips of different colors may be substituted for the alien, stars and printable hundred chart if printing is not available. Created by Jordan Rhude & Emily Westerling, 2015

Evidence of Learning (Diagnostic Assessment of Progress):

Place stars on 23, 45, 68, 81 and 90 on the hundred chart. Have student identify all the numbers.
