

Printables for “1-20 SPLAT”

KNPIG ID # Ni 1120.2 - RED

This file contains printables for a small group of students.

For each additional student print 1 new splat game board and one set 20-frames.

- 6 1-20 SPLAT Game Board
- 3 sets of Splat 20-Frames- Numbered: 1-20

Teacher Note: Recommended lamination or protective sleeves for game board so use of dry erase markers is possible. Protective sleeves are easier to erase than lamination but do not hold up as long.

If printing the game board is not possible, students may create their own on a piece of paper. Be sure to have them follow the same format as the one provided. If you do not want students to color on the game boards have them cover the number square with colored tiles or bingo chips.

A 100s chart splat consisting of six rows of ten columns each. Each row is divided into two groups of five columns by a vertical line. The rows contain the following number of black dots in the top row: 1, 2, 3, 4, 5, and 6. The bottom row of each section is empty. The entire chart is enclosed in a red dashed border.

The image shows a worksheet for a dot card activity. It consists of six rows, each containing two 10-column grids. A vertical line runs down the center of each grid. The top row has 5 dots in the first grid and 2 dots in the second. The second row has 5 dots in the first and 3 dots in the second. The third row has 5 dots in the first and 4 dots in the second. The fourth row has 5 dots in the first and 5 dots in the second. The fifth row has 5 dots in the first and 6 dots in the second. The sixth row has 5 dots in the first and 7 dots in the second. Each grid is a 2x10 table with a vertical line down the middle.

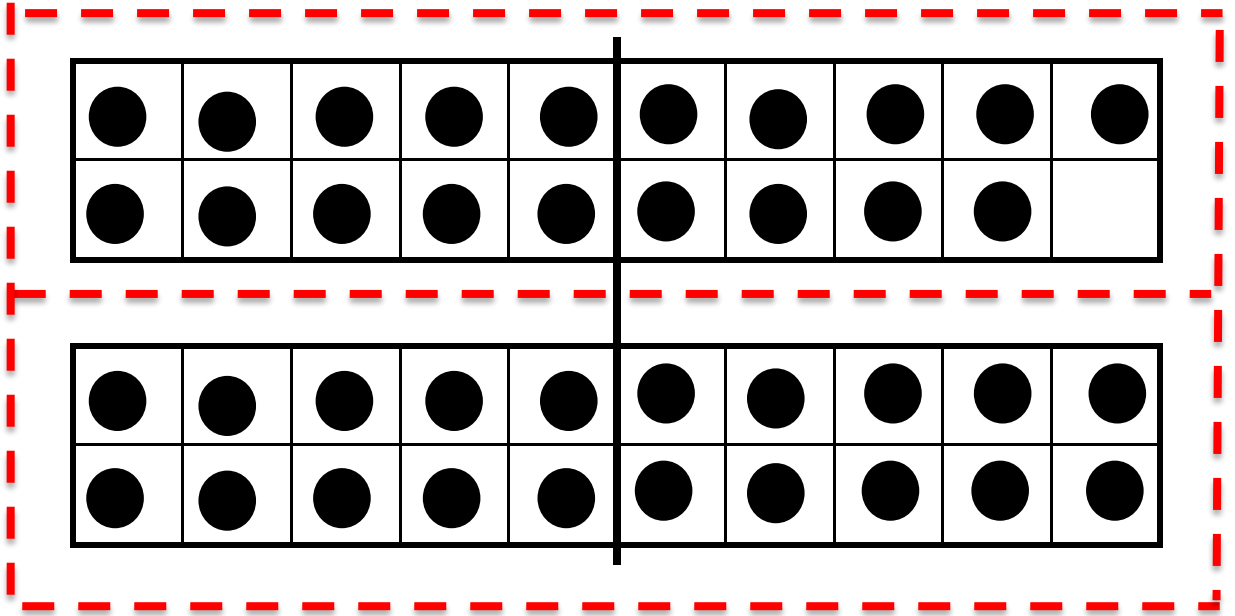

The image shows a worksheet for a dot card activity. It consists of six rows, each containing two 10-column grids. Each grid is divided into two rows of five columns. The top row of each grid contains 10 black dots. The bottom row contains 5 black dots in the first five columns, and the remaining five columns are empty. A vertical line separates the two grids in each row. The entire page is enclosed in a red dashed border.

Each grid is a 2x10 table with a vertical line down the middle.

The image shows a worksheet for a dot card activity. It consists of six rows, each containing two 10-column grids. Each grid is divided into two rows of five cells. The top row of each grid contains 10 black dots. The bottom row contains 3 black dots in the first three columns, followed by 7 empty cells. A vertical line separates the two grids in each row. The entire page is enclosed in a red dashed border.
