

Printables for “Arrow Cards (10 to 19)”

KNPIG ID # Ni 1125.2 – RED

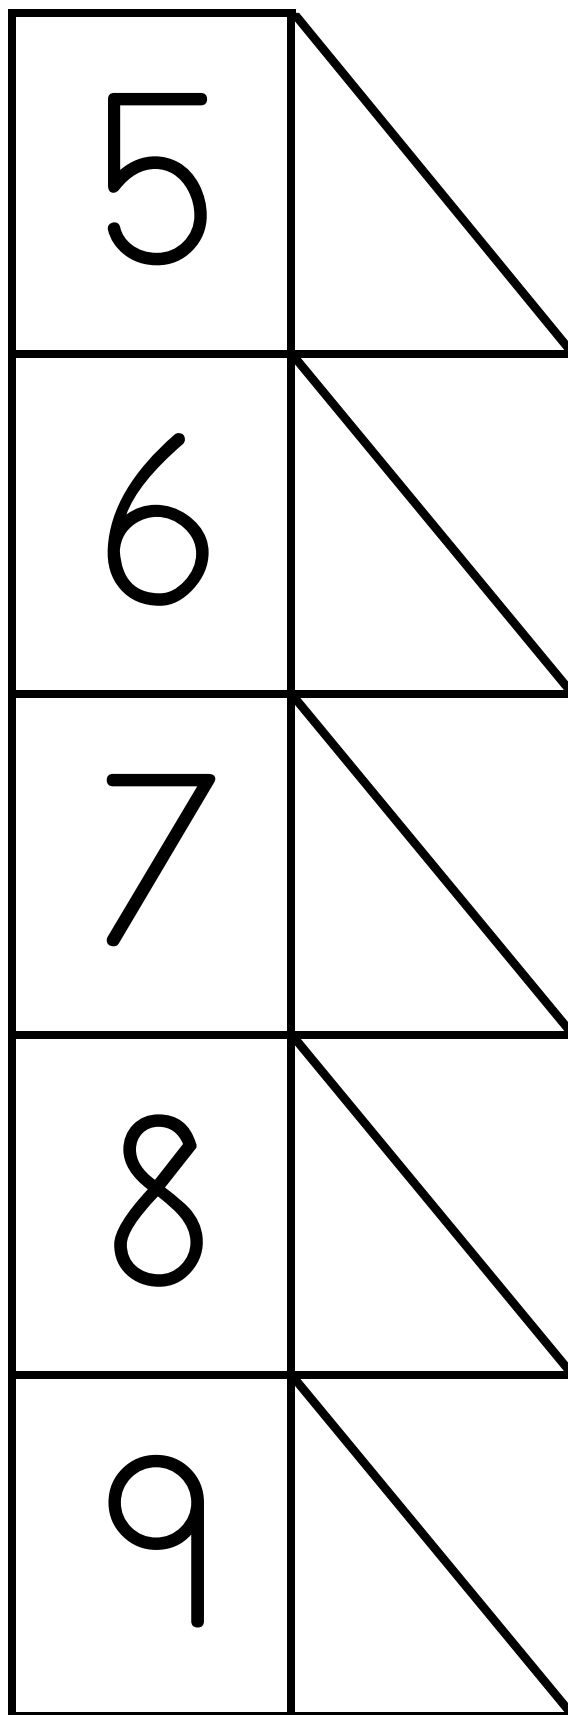

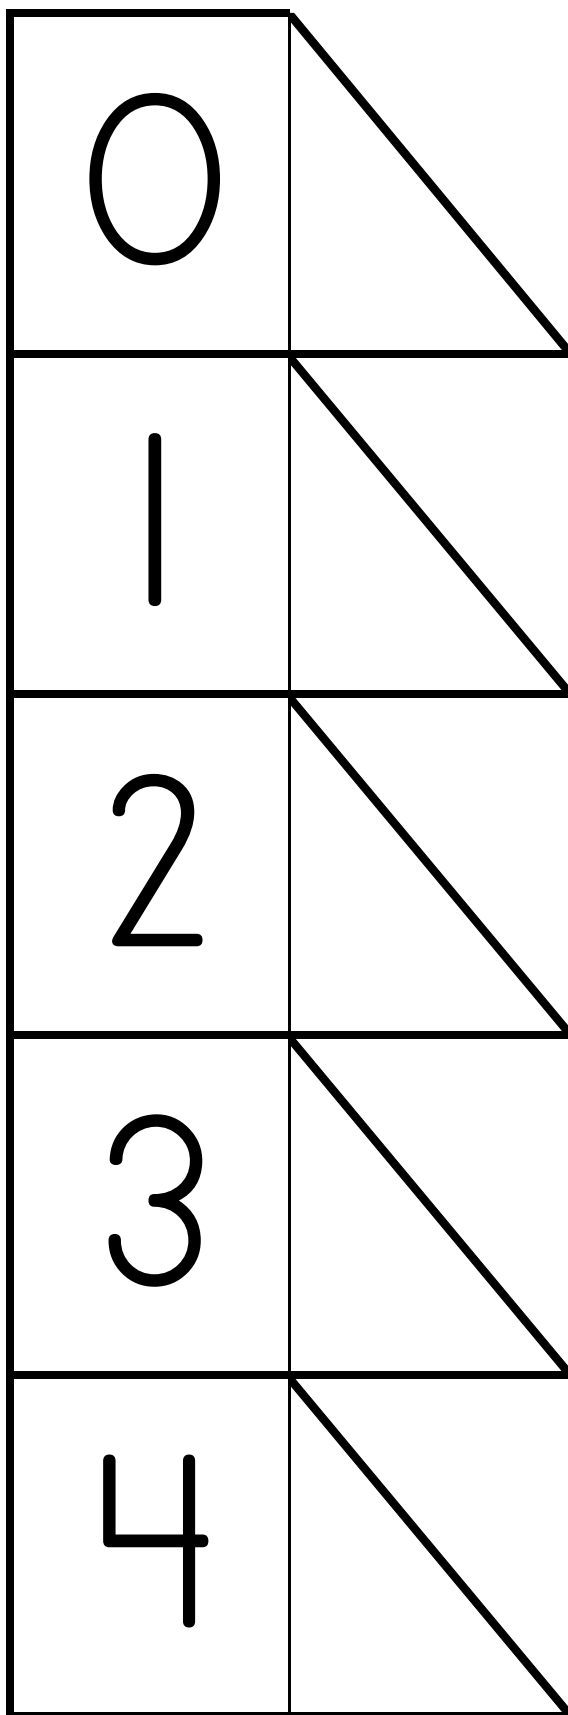

This file contains printables for a small group of students.

For each additional group of students print 1 set of Arrow Cards.

- Single-Digit Arrow Cards – Numbered 0-9
- One "10" Arrow Card

Teacher Notes: See teacher note for activity Ni 125.1. Teacher may initially need to model that numbers are built from arrows of different colors, placed so the arrows overlap and all numerals are visible. If students have trouble reading the numbers, the cards can be separated so the value of each number will help the child identify the number he/she built. Students working independently could build 3 - 5 numbers and then order those numbers.

Cut arrows on the dark lines. If desired, print each place value on a different color.

Cut arrows on the dark lines. If desired, print each place value on a different color.
