Teacher Notes: Not all cards 10 to 100 need to be included. If desired, load deck with multiple copies of numerals that are challenging for a student. For example, some students mix up numbers such as 15 and 51 or 13 and 31. Alternatively you may choose to focus on a span like 20 to 50.

Numerals Roll

Cut on double line (on right). Use masking tape to cover back of paper so that all squares are covered and tape runs over the cut edge 2-3 inches. Cut on dark lines and trim tape overhang leaving approximately 2 inches. Cut rows to create strips. Connect strips to create numeral roll. Wrap scotch tape around connection points. To create a 2 color roll, print 2 copies, each on a different colored paper. Assemble two 2-color numeral rolls by using alternating strips from each color.
