- Five Frame Cards - Five (5): 8 Cards.

Teacher Notes: Difficulty level can be increased by using numeral cards 0 to 5 . Introduce the game by playing with a small group. Direct the students to lay their cards on the table in front of them so that possible pairs can be discussed. When the students are comfortable with the game, let them play in pairs or small groups. Please Note this file contains 8 individual cards from each set of numbered five frames.

This activity only calls for 4-6 cards from each set.
