

Printables for “Bingo Addition (10+)”

KNPIG ID # A 3321.6 – ORANGE

This file contains printables for a small group of students.

For each additional student print off 1 new bingo game board and Expression Cards.

- 6 Bingo Game Board filled with expressions "10 + 1" to "10 + 8".
- Expression Cards with sums in the range 11- 18
 - 2 Pages: 56 total cards.

Teacher Notes: To make game easier, use the expression cards that are 8+, 9+ and 11+ (first page). If additional support is needed, a student can use counters (in two colors) on an empty double 10 frame or a double bead rack. As students play, ask questions such as "How did you work that out?", "Is there another way you could figure that out?" and "Is there a faster way you could figure that out". Note if students are using composite str?ategies. For example, a student using a composite strategy might look at $7+5$ and reason "I can take 3 from the 5 and put it with the 7 to get $10+2$ ".
