# Printables for "Quick Images" 

KNPIG ID \# M 4435.1 - RED

This file contains printables for two students.
For each additional pair of students print Tree Background Pictures and Small Bird Pictures.

- 6 Tree Background Pictures.
- 54 Small Bird Pictures.

Teacher Notes: Other backgrounds and objects may be used. For example, use a house background with bear counters, lily pad background with small frogs, or paper plates with circle counters (i.e."cookies"). Assist students in using the proper language when talking about groups and items in groups. The recording of the equation may initially be omitted. Gradually introduce students to recording both an additive and a multiplicative equation.
