# Printables for "Quick Images" 

KNPIG ID \# M 4435.5 - PINK

This file contains printables for a small group of students.
For each additional group of students print Multiplicative Quick Images.

- Multiplicative Quick Images - 28 cards in total.

Teacher Notes: Note carefully how students are solving the tasks. Are students counting by ones, skip counting or using known multiplication facts. Students may be asked to record the equations that match the question and the solution. For example, a student looking at a picture with 5 stacks of 3 books might write $5^{*} n=15$. The other student(s) would solve to find $n=3$.
