

# Printables for “Pop Drop Move-It (2&4)”

KNPIG ID # M 4442.4 – PURPLE

This file contains printables for two students.

For each additional pair of student print 1 new Game Board and both Recording Sheets.

- Pop Drop Move-It game board (multiples of 4)
- Blank Pop Drop Move-It game board
- Recording Sheet Version A
- Recording Sheet Version B

Teacher Note: Skip counting with dotted popsicle sticks (activity M 4442.1) can be used as a warm-up for this task. If students need more support, 4-dot sticks can be used on an "as-needed" basis for students to work out products. The blank Move-It game board (included in the print link) can be used to create customized variations.

# MULTIPLICATION MOVE -IT

Multiplication with 4

Each player will start with 8 translucent counters in a single color. On your turn, roll the dice. Find the sum and multiply the sum by 4. If the product is already covered by another player, tell the other player to "move it" and cover the number with your own counter. The first player to use all of his or her counters wins the game.

48	28	16	32
32	24	28	20
20	20	24	16
44	8	24	12
32	40	28	36

Materials:

Two Number Cubes (1-6)

# MOVE -IT

Each player will start with 8 translucent counters in a single color. On your turn, play as directed and cover the resulting number. If the number is already covered by another player, tell the other player to "move it" and cover the number with your own counter. The first player to use all of his or her counters wins the game.

*Teacher Note: Fill the game board with numbers of your own choosing to create a customized Move-It game board.*
