

Printables for “Tiling Rows”

KNPIG # M 4448.2 – BLUE

This file contains printables for two students.

For each additional pair of students print rectangle cards.

- Rectangle Cards – 22 Pages

Teachers must also supply students with six 1 inch square tiles of one color.

Teacher Note: During discussion, observe if students are attending to the array structure of the tiles. Bring out vocabulary such as "row", "equal rows", "array", "area" and "covering".
If targeting standard 2.OA.4, limit size of rectangles to 5 by 5.
