

# Printables for “High Rollers: Roll to Target (within 20) & Low Rollers: Roll to Zero (within 20)”

KNPIG ID # T 5505.0 – YELLOW

This file contains printables for five pairs of students.

For each additional pair of students print one new score board.

- 5 "High Rollers!" Score Board
- 5 "Low Rollers!" Score Board

**Teacher Note:** This activity challenges students to work toward conceptually counting the number of items in a group within 20. Students will place no particular value to the ten in this level as quantities are seen only as individual units. This is the introductory level for this task group. This activity can be run as a small group activity. Just print more copies of the scoreboard for students to share in pairs.

#### **Alternate Materials:**

Using a container, such as a cup, to hold sticks will keep the students organized and prevent them from mixing their sticks with the center “bank” of sticks and bundles.

You may substitute base 10 blocks for craft sticks. Students should become familiar with materials they can bundle or group together to see how ten ones make one ten.
