

Printables for “Cup O' Gold”

KNPIG ID # T 5513.0 – YELLOW

This file contains printables for two students.

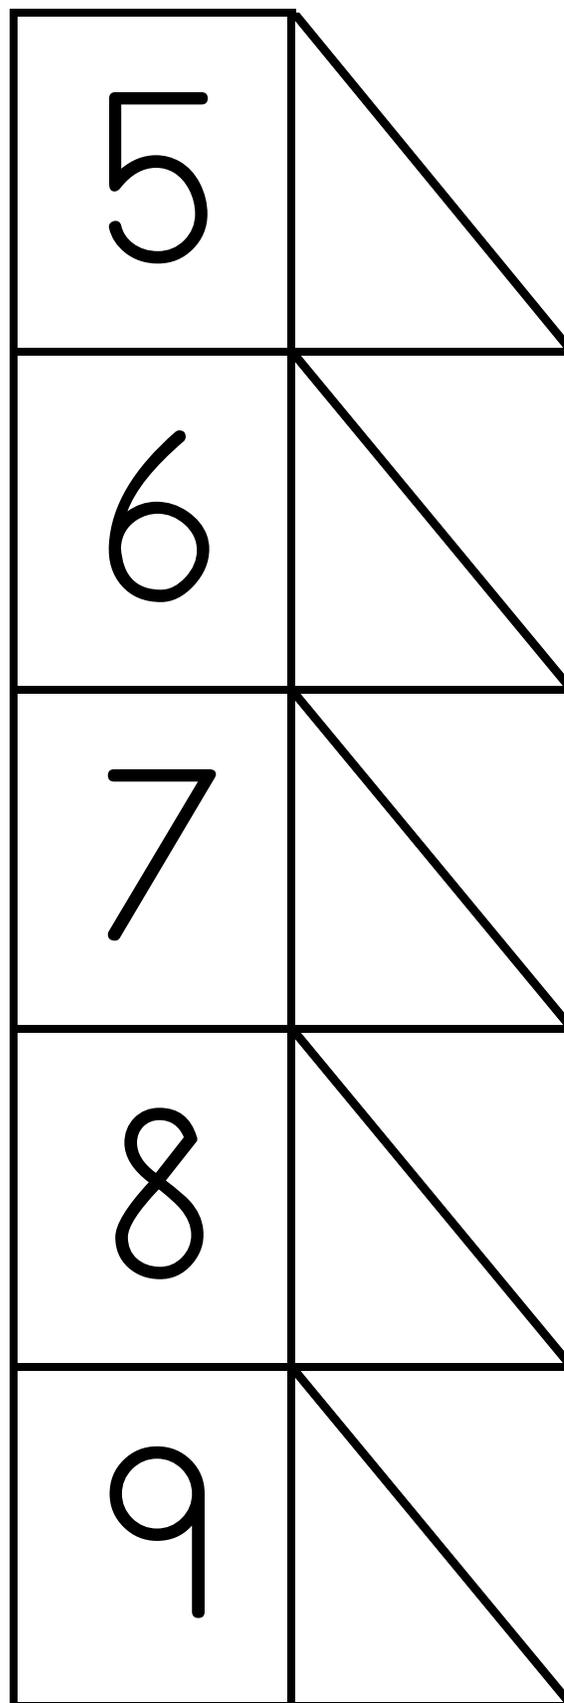

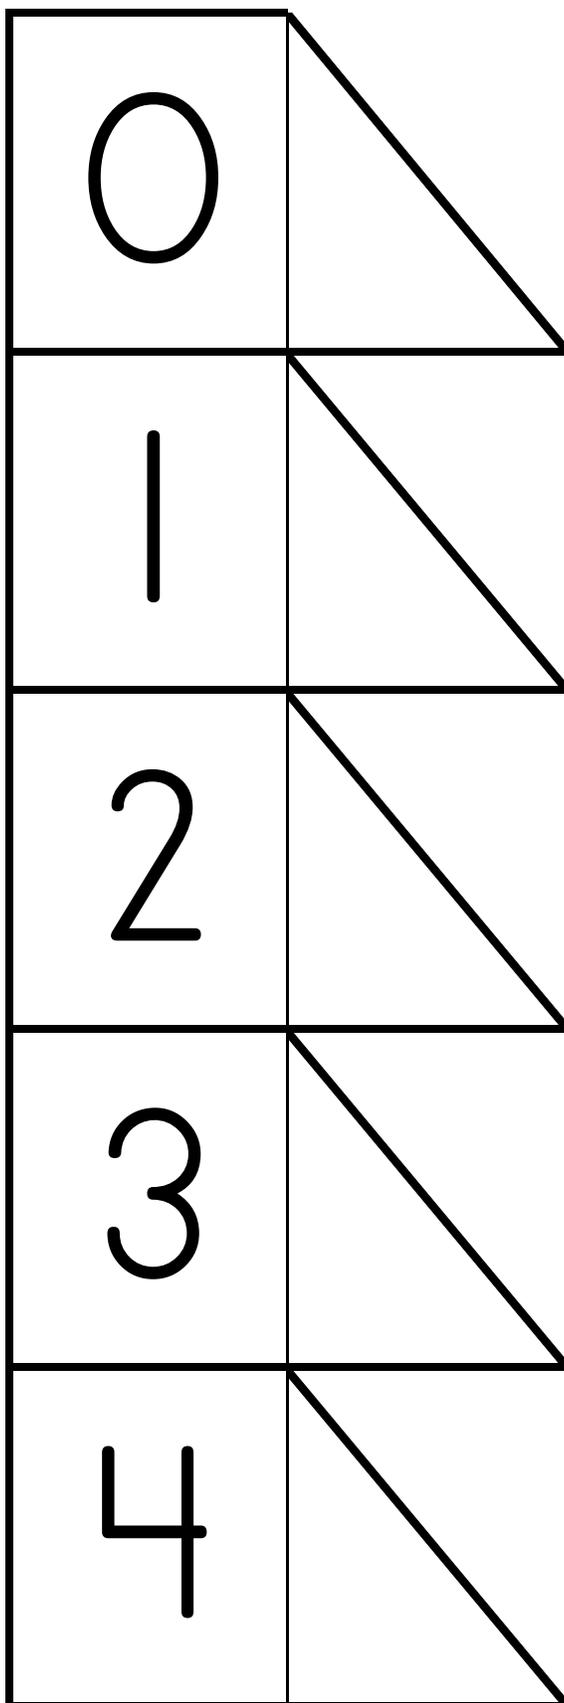

For each additional pair of students print 1 set of Arrow Cards.

- Ones Arrow Cards – Numbered 0-9.
- Tens Arrow Cards – Numbered 00-90.

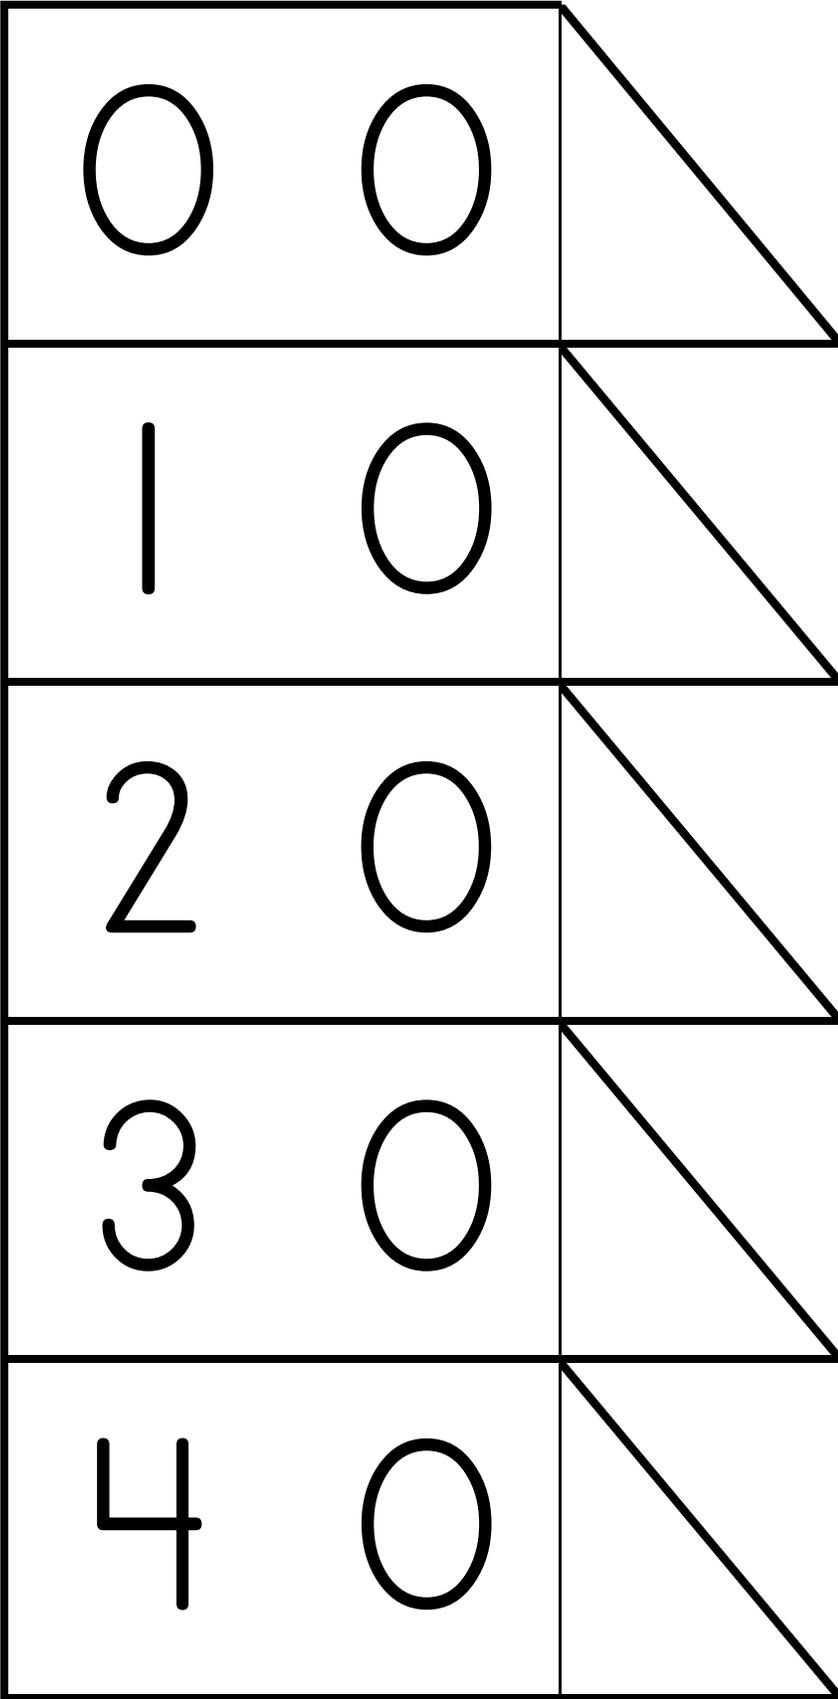

Teachers must supply students with tub of yellow unit cubes ("gold pieces") or other small counters and 10 portion cups with lids for each student.

Teacher Notes: Students are only ready for this activity when they already grasp the concept of a composite group. Start with using only 10 as the 2-digit number and build to using any 2-digit number. Also, make the task less complex by using the 2-digit arrow cards only and adding in the ones when students have a firm grasp of the groups of ten relating to the 2-digit arrow cards.

Cut arrows on the dark lines. If desired, print each place value on a different color.

Cut arrows on the dark lines. If desired, print each place value on a different color.
