

Count Around (10 to 1)

I am learning to say number words backward from 10-1.

Materials:

verbal

Directions:

1. Have everyone in the group stand in a large circle and choose someone to be the leader.
2. The leader starts the game by saying "10."
3. The person on the left of the leader goes next by saying "9."
4. Keep taking turns counting backwards around the circle until someone gets to "1."
5. The person who says "1" will sit down and the person to his or her left will start again at "10" and start the count again.
6. Repeat this until there is only one person left standing!
