

Saying Number Word Before (within 10)

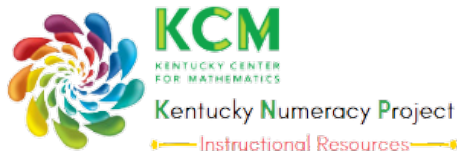

I am learning to say the number that comes before a number in the range 1 to 10.

Materials:

a ten-sided die with numerals 0-9 on it, or numeral cards 1-10 (can use dots or symbols)

Directions:

1. Roll the die (or draw a card).
2. Tell your teacher or partner the number that comes just before the number you rolled.
3. Take turns with your teacher or partner.
