

Tic Tac Toe

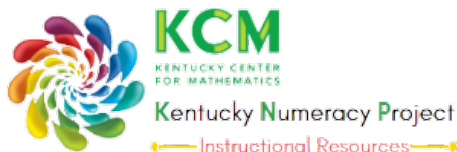

I am learning to read the numerals and count back from 5-1.

Materials:

five-frame game board for each player with rectangles large enough for numeral cards to fit inside;
three or four sets of numeral cards 1 - 5

Directions:

1. Mix the number cards up and put them face down where you can't see the numbers.
2. Player 1 draws a card from the stack and reads the number aloud.
3. Next, player 1 counts back from the number on the card to 1, and then places the number card in the correct slot on the five frame.
4. Players take turns.
5. The first player to fill all five spaces is the winner.
