

Tic Tac Toe

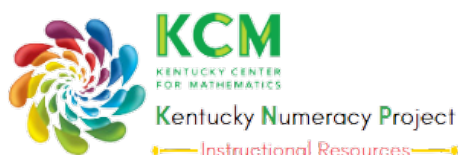

I am learning to read the numerals and count forward from 1 - 5.

Materials:

five-frame game board for each player with rectangles large enough for numeral cards to fit inside;
three or four sets of numeral cards 1 - 5

Directions:

1. Give each player a game board and place the cards in a stack face-down on the table.
2. Draw a card from the stack, say the number out loud to your partner, and count **forward** from 1 until you come to the number on your card.
3. Then, place the card on your game board in the correct spot for that number (make sure the cards are in counting order!).
4. Take turns with your partner.
5. Try to be the first player to fill all the spots on your game board.
