

Tic Tac Toe

I am learning to say the number that comes just after a given number in the range of 1-29.

Materials:

Bingo Game Board labeled with random numbers 2-30; numeral cards 1-29

Directions:

1. Give each player a bingo board and place the cards face-down on the table.
2. Draw a card and cover the number **that comes right after** it on your bingo board.
3. Take turns with your partner.
4. Try to be the first player to cover 3 numbers in a row.
