

Matching Numbers from 5 to 10

I am learning to match numeral cards 5-10 to dot cards, finger patterns, and tally marks.

Materials:

- numeral cards 5-10
- dot cards 5-10
- tally mark cards 5-10
- finger pattern cards 5-10
- die labeled 5-10

Directions:

1. Scatter all the cards face up at random on the table.
2. Have your teacher or partner roll the number cube and call out the number.
3. Take turns finding matches among the numeral cards, dot cards, finger pattern cards, and tally mark cards.
