<u>Teacher's Mistake</u>

I am learning to detect errors in counting, in the range of 100-30.

Materials:

verbal

Directions:

1. Player 1 says a backward sequence of numbers starting anywhere between 100 and 30, but leave one out. (72, 71, 69, 68, 67)

2. Player 2 lets Player 1 know when you make a mistake.

3. Player 2 earns a point when he/she identifies the missing number.

4. Player 1 earns a point when Player 2 cannot identify the omitted number.

5. Players take turns and continue.
