

Hidden Numbers (1-10)

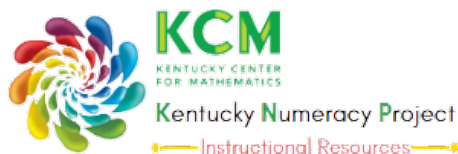

I am learning to tell the number before any number in the range of 1 to 10.

Materials:

numeral track 1-10 (see link for directions)

Directions:

1. Get a numeral track from your teacher.
2. Open one door and say the number, then say the number that comes right before it. Open the door to see if you were correct.
3. Close the doors.
4. Choose a different door to open, say the number, and then say the number that comes right before it.
5. Keep doing this until all the doors have been opened and you have named all the numbers.
