

## More or Less Game (1-10)

**I am learning to tell the number word before  
in the range of 1 to 10.**

### Materials:

- More and Less Game mat
- numeral cards - 4 cards each of numbers 1-10, for a total of 40 cards.

### Directions:

1. Give each player 5 cards and put the rest of the cards in a stack, face down, beside the game board.
2. Take one card from the stack and put it in the middle of the game board. This is the starting card.
3. Look at your cards and try to find a number card that is one less than the starting card.
4. If you have a card that is one less than the starting card, you will lay it on top of the starting card when it's your turn. If you don't have a number card that is one less, you can pass until your next turn.
5. During each turn, be sure to tell the other players why you chose the card you played ("the starting card is 6, so I'm playing a 5 because 5 is one less than 6").
6. After each turn, draw a card from the stack.
7. Make sure each player gets a turn.
8. If no one has a card that is one less than the top card on the game board, draw a card from the stack to make a new starting card.
9. If a "1" ends up being the top card on the game board, draw another card from the stack and use it as the new starting card.
10. Keep playing until all the cards are gone from the stack.
