

100 board scrabble (1-30)

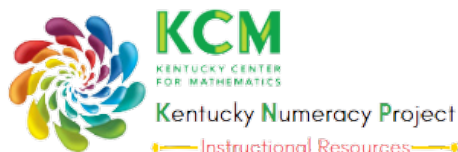

**I am learning to tell the number word before
in the range of 1-30.**

Materials:

blank 100 chart; 1-30 numeral tiles

Directions:

1. Put all the tiles in a cup or bag and mix them up.
2. Everyone should take 5 tiles from the cup or bag.
3. During your turn, try to find one of your tiles that is **one less** than any of the tiles that are on the 100 chart.
4. If you do not have a tile to play, draw another tile from the bag and wait until your next turn.
5. Make sure everyone gets a turn.
6. Whoever runs out of tiles first wins!
