

100 board scrabble

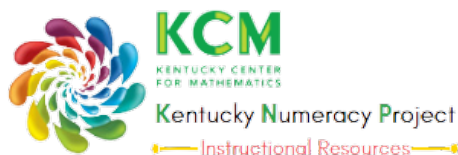

I am learning to tell the number word before
in the range of 1-100.

Materials:

- blank 100 chart
- 1-100 numeral tiles

Directions:

1. Put all the tiles in a cup or bag and mix them up.
2. Everyone should take 7 tiles from the cup or bag.
3. During your turn, try to find one of your tiles that is **one less** than any of the tiles that are on the 100 chart.
4. If you do not have a tile to play, draw another tile from the bag and wait until your next turn.
5. Make sure everyone gets a turn.
6. Whoever runs out of tiles first wins!
