

Ordering Numbers

I am learning to write and say 2 digit numbers.

Materials:

Head Full of Numbers game or ten-sided numeral dice 0-9

Directions:

1. Place two dice in a cup.
2. Shake the cup and dump out the dice.
3. Write a two-digit number and say aloud. (**For example if the dice are 3 and 5 you could make 35 or 53.**)
