

Reading Numerals from 0 to 20

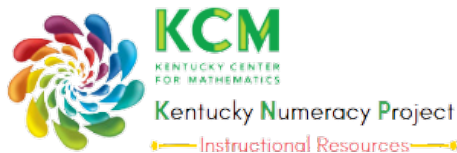

I am learning to read numerals 0-20.

Materials:

numeral cards 0-20

Directions:

1. Read each numeral card, aloud, as shown by teacher or partner.
2. Once all 20 numbers have been read aloud, place it on a table; face up, in a random order.
3. Put all 20 numeral cards in order and then read them aloud.
