

How Much? (1 to 10)

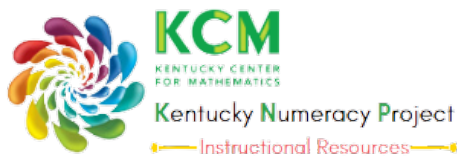

I am learning to recognize numerals 1 to 10 and match quantities to them.

Materials:

TicTacToe: random combinations of numerals 1-10; 3 sets of domino dot cards 1- 10; counters of 2 colors (1 for each player)

Directions:

1. Shuffle dot cards and place them in a pile facedown.
2. Player 1, take the top card from the draw pile and place a marker on a corresponding numeral on the Tic Tac Toe board.
3. Player 2 repeats this process.
4. Players take turns.
5. The first player to get three in a row is the winner.
