

## How Much?

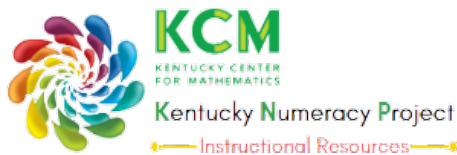

I am learning to recognize numerals 1 to 1000 and match quantities to them.

**Materials:**

arrow cards (hundreds, tens and ones); base ten blocks (flats, rods and units)

**Directions:**

1. Using base ten blocks, build the number that the teacher has built out of arrow cards.
2. Another student will check your work.
3. The next student, using base ten blocks, will build the number that the teacher has built out of arrow cards. You will now check their work.
