

Comparing Numbers from 0 to 9

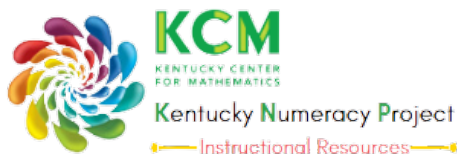

**I am learning to read and compare numerals
1-10.**

Materials:

two Deca-die (10-sided dice) labeled 0-9; writing space

Directions:

1. You and your partner each roll a die or number cube.
2. Compare the numbers rolled.
3. The student who rolled the greater number makes a comparison statement. (For example if the dice are 5 and 3 you could say, "5 is greater than 3")
4. The same student then writes the comparison statement.
