

Number Alien within 10

I am learning to identify two numbers in the range 1-10 and tell if a number comes before or after the other.

Materials:

- Star Marker
- Alien Marker
- One full row (1-10) from hundreds chart

Directions:

Set up:

1. Each pair of students gets a one full row (1-10) from a hundreds chart.

Game Play- On your turn:

1. Lay the alien marker on one of the numbers on your hundreds chart row.
2. Lay the star marker right next to the alien marker. They must be touching!
3. Ask your partner:
 - What number the alien marker is covering?
 - What number the star marker is covering?
 - Does the star come before or after the alien?

Switch roles and repeat.
