

Number Alien with 20

I am learning to identify two numbers in the range 1-20 and tell if a number is above or below another on a hundreds chart.

Materials:

- Two full rows (1-20) from hundred chart
- Star Marker
- Alien Marker

Directions:

Set up:

1. Each pair of students gets a two full rows (1-20) from a hundreds chart, one start marker, and one alien marker.

Game Play- On your turn:

1. Lay the alien marker on one of the numbers on your hundreds chart rows.
2. Lay the star marker either right above or below the alien marker. They must be touching!
3. Ask your partner:
 - What number the alien marker is covering?
 - What number the star marker is covering?
 - Does the star come before or after the alien?

Switch roles and repeat.
