

## Race to Write (Ten Frames)

I am learning to determine what goes with a number to make 10.

### Materials:

set of 10 frames 0 to 10, writing space

### Directions:

1. Place 10 frames in a stack face down.
2. One player (or the teacher) turns over a card.
3. The other players race to write what goes with the amount shown to make 10. Forexample, if a frame shows 2 dots, students should write "8".
4. The first player to write the correct number wins a point. The player who turned overthe frame is the judge and decides who wins a point.
5. Take turns turning over cards and being the judge.
6. The first player with 5 points wins.
