

## Memory (Make 5, 5 frames)

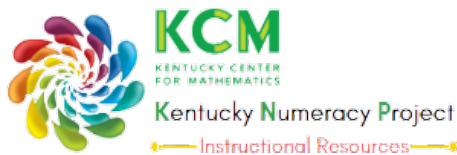

I am learning to tell 2 numbers that go together to make 5.

### Materials:

five frame cards 0 to 5 - 4 of each

### Directions:

1. Get Five Frame cards, 0 to 5, 4 of each. Shuffle.
2. Place cards in an equal array (face-down).
3. Player 1 turns over 2 cards.
4. If they make 5 player 1 keeps them. If not they are turned back over.
5. Players take turns until all the cards are turned over.
6. The game ends when all cards are matched.
