Memory (Make 10, 10 frames)

## I am learning to tell 2 numbers that go together to make 10.

Materials:

ten frame cards, 0 to 10 - 2 of each

Directions:

1. Get Ten Frame cards, 0 to 10, 4 of each. Shuffle.

2. Place cards in an equal array (face-down).

3. Player 1 turns over 2 cards.

4. If they make 10 player 1 keeps them. If not they are turned back over.

5. Players take turns until all the cards are turned over.

6. The game ends when all cards are matched.
