<u>Memory (Make 20, double 10 frame cards)</u>

I am learning to tell 2 numbers that go together to make 20.

Materials:

double 10 frame cards 0 to 20 - 1 each with either the 10 removed or an extra 10 added

Directions:

1. Get double 10 frame cards, 0 to 20, 2 of each. Shuffle.

2. Place cards in an equal array (face-down).

3. Player 1 turns over 2 cards.

4. If they make 20 player 1 keeps them. If not they are turned back over.

5. Players take turns until all the cards are turned over.

6. The game ends when all cards are matched.
