

Four in a Row (10 plus)

I am learning to use the ten-wise structure of numbers up to 20.

Materials:

- 6X7 Four in a Row board with numbers 10-19
- die with numerals 0-9,
- die with the numeral 10 on every face
- counters to use as covers

Directions:

1. Get the Four in a Row board, dice (or frame cards) and counters.
2. Players each select 1 color to use as a cover.
3. Player 1 rolls the cubes and places a marker on a number that is the total of the 2 cubes. (Alternatively, player may draw a double 10 frame card and cover the corresponding number.)
4. Player 2 takes a turn.
5. Play continues until someone has 4 in a row.
