

## Make a Ten (Numeral cards)

I am learning to make sets of 2 cards with a total of 10.

### Materials:

numeral cards - 4 or 6 each of 1 to 9

### Directions:

1. Get Numeral cards, 1 to 9, 6 of each. Shuffle.
2. Player 1 deals each player 8 cards. Put the rest face down.
3. Player 1 turns over 1 card, then place a card from their hand to make the total of ten.

(Ex. turn over 3, play 7 from hand.)

4. If player can't play a card from hand, the turned over card goes in the discard pile.
5. Players take turns until all the cards are turned over.
6. The game ends when one of the players plays all of the cards in hand.
