

## Mystery Card

**I am learning to read and match quantities and numerals to 5.**

### **Materials:**

5 frame cards, 0 to 5, 2 each, numeral cards, 0 to 5, 2 each

### **Directions:**

1. Get Five Frame cards, 0 to 5, 6 of each. Shuffle.
2. Player 1 remove the top card as the “mystery card” put the rest face down, place two cards in a row, face up.
3. Player 1 draws a card from the deck to see if they can use it and/or the two cards facing up to make five (use only 2 cards).
4. If they can't, they place the card on the table extending the line.
5. If they can, they keep the set. Replace cards from deck, so there are at least 2 cards facing up. Pick up no more than one pair in a turn.
6. Continue to make combinations until all cards but one have been used.
7. The last card should match the “Mystery” card to make 5.
